

Visualize Your Talks

BRING YOUR WORDS TO LIFE

Live graphic recording is visual note-taking. We transform information from your events or meetings into real-time images, while you watch. All done live by me, the illustrator. While people discuss and explain, we digitally capture your ideas, bringing together the essential elements for everyone to see! As you can imagine, these live drawings are also a great way to share content after the event!

Virtual or in-person

(duration: variable)
